18-19 MAY, 2024

Place: Dubai

The VitalStim Certification Course will be a value-add to both therapists and organisations by paving the way for improved quality of life for dysphagic patients with the state-of-art technology.

The 2 day intensive certification program will cover:

- Normal and pathological swallowing mechanisms
- Theory of neuromuscular electrical stimulation (NMES)
- Physiological effects of Vitalstim Therapy
- Application of sEMG on muscle re-education
- Practical 'hands-on' lab sessions
- sEMG as an objective evaluation tool for swallowing function
- Clinical application for paediatric and adult dysphagic clients
